

Certificate

for

VOS | Vatten och
Samhällsteknik AB

In the financial year 2014-2015, the business activities of
Vatten och Samhällsteknik AB generated emissions of

20 tonnes of greenhouse gases

This certificate confirms that these emissions were offset by
emission reductions in the Gold Standard climate protection project

Clean energy from biogas, India

First Climate has retired the corresponding emission
reduction certificates irrevocably from the market.

Bad Vilbel, in October 2015
