

Certificate

With this certificate First Climate confirms that

Vatten och Samhällsteknik AB

supported climate action with certified emissions reductions or removals in the amount of:

14 t CO₂e

These emissions, covering 110 % of the company's CO₂-emissions in the financial year of 2023/2024, were reduced or removed from the atmosphere by supporting the following verified climate project:

Clean drinking water for schools in Africa, Kenya

and the corresponding carbon credits have been permanently retired from the market.

Bad Vilbel, December 2024
